

Shadow Light

Danny Vera

I've was feeling kinda seasick
Cause my boat just rocked too hard
I'm not a sailor or a captain
Not loving these dark waters
I'm setting foot on shore again

I was flying too high
With broken wings found my way home
Now I kiss the ground I walk on
I'm never going up there anymore
I should've known

On moonless nights
The darkness hangs as heavy blankets
Moved by southern wind
Oh and I
I hope that I don't burn my hope
And blow it out in grey smoke rings of doubt
Like shadow light

I was driving too long
My eyes got stuck in a stare
I was blinded by some headlights
On the wrong side of the road
Almost crashed and burned out there

On moonless nights
The darkness hangs as heavy blankets
Moved by southern wind
Oh and I
I hope that I don't burn my hope
And blow it out in grey smoke rings of doubt
Like shadow light

On moonless nights
The darkness hangs as heavy blankets
Moved by southern wind
Oh and I
I hope that I don't burn my hope
And blow it out in grey smoke rings of doubt
Like shadow light
