

The New Now

Danny Vera

We took a wrong turn on a road filled with regret
And kinda lost our way
We met the silence in the peace and quiet for more then just a day

And every time we burned our hopes and killed our dreams
It was not an easy way to face reality

And out of the blue
We're in the new now
Out of the blue
We're in the new now
And out of the blue
We hit a wall
But saw a new sky above us
While we thought we'd seen them all

It's an ancient way of traveling through life
When mistakes are set aside
And forget about what used to be so valuable at any price

And every time we burn our hopes and kill our dreams
It is not an easy way to face reality

And out of the blue
We're in the new now
Out of the blue
We're in the new now
And out of the blue
We hit a wall
But saw a new sky above us
While we thought we'd seen them all

And every time we burn our hopes and kill our dreams
It is not an easy way to face reality

And out of the blue
We're in the new now
Out of the blue
We're in the new now
And out of the blue
We hit a wall
But saw a new sky above us
While we thought we'd seen them all
But saw a new sky above us
While we thought we'd seen them all
