

The Weight

Danny Vera

Close to dawn, I turn so deep inside
Feel every stone I carried around
For so long

But now that I got what I want
I'm not so sure the weight is gone
Still heavy on my shoulders carrying on
The weight ain't gone

A force so strong, is pulling me down
Can barely hold, this gravity I've found
Feels so wrong

But now that I got what I want
I'm not so sure the weight is gone
Still heavy on my shoulders carrying on
The weight ain't gone

But now that I got what I want
I'm not so sure the weight is gone
Still heavy on my shoulders carrying on
The weight ain't gone
