

The Year Of The Snake

Danny Vera

Had a little trouble with myself
I'm kinda lost sometimes
But your lovin' pulls me through
You make it all worthwhile

Found my way back home to you
For the millionth time
In the land where they fear god
Somehow it just feels fine

You can say 13 is a bad luck sign
Can call it what you want

The year of the snake gave me life
It gave me death, gave me love without regret
The year of the snake gave me life
It gave me death, to remember and forget

Don't need a compass or a guide
I will find you blind
Like the moon you keep pullin' me
Like the water and tides

We're together like virtue and vice
It's bond for life
We took the 8 for infinity
Got the gold and let it shine

The year of the snake gave me life
It gave me death, gave me love without regret
The year of the snake gave me life
It gave me death, to remember and forget

You can say 13 is a bad luck sign
Can call it what you want

The year of the snake gave me life
It gave me death, gave me love without regret
The year of the snake gave me life
It gave me death, to remember and forget

The year of the snake gave me life
It gave me death, gave me love without regret
The year of the snake gave me life
It gave me death, to remember and forget
