

# Utopia Won't Wait

Danny Vera

Ain't got no time  
Ain't got no time  
No time to feel sorry for myself  
Keep myself together  
Wake up, shake it off, c'mon

I thought I needed more  
I thought I needed more  
I needed more to fix my situation  
Find a destination  
Get it all on board

I can almost see it  
I can almost touch it  
I feel it near me, it's so close  
Just a little longer  
You know I'm getting warmer  
You know that I will get there  
You know that I will get there  
You know that I will get there

So I ain't got time to stay here longer  
Too few hours in my days  
Utopia won't wait
