When The Light Shines

Danny Vera

When the light shines
I'm singin' all night long
When the light shines
Tell me what you want

It'll cost you nothin'
Just a sip of your rum

When the light shines
I'm dancin' without shoes
When the light shines
I can't control this blues

When you call my name
We'll get lost with nothing to lose

When the light shines
Firewater flows
When the light shines
Maybe the devil knows

Let's meet at the crossroads
Makin' new tomorrows

Feel the rhythm
Burnin' in your bones
Damn the darkness
Let it all be gone

When the light shines
All that I want is you
When the light shines
We'll dance away the blues

Between dark and daylight
Maybe sins and virtues

When the light shines
I'm singin' all night long
When the light shines
Tell me what you want

It'll cost you nothin'
Just a sip of your rum
