

Whisperin' Thoughts

Danny Vera

Reasons to believe
Not hard to find
You don't have to dig in too deep
Can see it from all sides

The truth is there
Just listen and hear

A crash into the trees
No evidence found
They say 'believe what you see
And keep your head down'

Don't look no further
Don't try to find out

Whisperin' thoughts
We're being deceived
In what to believe

Number 7 went down
While there was no one around
It went down to the ground
Without making a sound

Try to look further
Try to find out

Whisperin' thoughts
Got to believe
We're being deceived
Whisperin' thoughts
We're being deceived
In what to believe

Read between the lines
And you will find
There's more than the eyes can see
You gotta believe

Open your mind
And listen to the

Whisperin' thoughts
We're being deceived
In what to believe
Whisperin' thoughts
Got to believe
We're being deceived
