

You

Danny Vera

You say I don't write ordinary love songs
'Cause I'm not romantic in that way
I will prove you wrong
Writing this in our home
While the dog I sleeping at my feet

I'll write about our life
Exactly I'll describe how you were dancing for me
And I'll write, I'll write about that time
We were flying through the night just to get home

You, you and only you
You only will do
You, you and only you helped me get enough out of life
Just being you

Couch potato life, a blanket and a movie
That's how we got through winter nights
But I will keep you warm
I won't let this home cool off
Each other guide through the hard times

I'll write about our life
Exactly I'll describe how you are laughing at me
And I'll write, I'll write about the time
We were driving through the night just to get home

You, you and only you
You only will do
You, you and only you helped me get enough out of life
Just being you

Life is waiting
Never let go
It's better this way

'Cause you, you and only you
You only will do
You, you and only you helped me get enough out of life
Just being you
