

I Don't Wanna Die

Danny Worsnop

Lay me down, I'm weary
I need to close my eyes
I can feel you near me
I don't wanna die

I feel the fires burning in me
I hear the hounds, they're sent to track me down

Take my heart, don't fear me
Someone's time to go
Say goodbye, let go of everything you know

I'm not done, I can't be, I am still alive
I don't want forgiveness
I just need more time
I don't wanna die

I feel the fires burning
I hear the hounds, they're sent for me tonight
And I don't wanna die!

Child, your days were numbered
Long before I came
Your room is waiting, it's time to take your place

But I don't wanna die!
(I don't wanna die!)

Lay me down, I'm weary
I need to close my eyes...
