

Midnight Woman

Danny Worsnop

Headlights off a Bama back road
Shine through my window when the night is black
Footsteps at my front door
I'll pour one more shot of Jack

You know it's late but you
Know I'll be waiting on you

Midnight woman, give me midnight loving
But you'll be gone when the sun comes up
Here you come girl, pulling me under
Feeling that hunger that just won't stop
Midnight woman

Take me to that place you take me
Even though I'm thinking maybe
It ain't right
Give me what only you can give me
Even though you won't be with me
In the morning light

You know I'm hooked on you
It's such a sweet abuse

Midnight woman, give me midnight loving
But you'll be gone when the sun comes up
Here you come girl, pulling me under
Feeling that hunger that just won't stop

I know you know it's hard to live in this shadow love
Is there someone waiting for you?
But I can't let go of my midnight woman

What lies will you be telling
When you wake up next to him?

Midnight woman, give me midnight loving
But you'll be gone when the sun comes up
Here you come girl, pulling me under
Feeling that hunger that just won't stop, stop

Midnight woman, give me midnight loving
But you'll be gone when the sun comes up
Here you come girl, pulling me under
Feeling that hunger that just won't stop, stop
Midnight woman
Woah, midnight woman
