

Prozac

Danny Worsnop

Prozac and coffee black
It's breakfast time again
You and me, recovery
Waiting for it to kick in

We fell in love
Got all screwed up
And held on for dear life
Oh lord we pray
We medicate until we're stabilized

We wore the crown
We painted the town
And held on for dear life
Got crucified and came back to life
With caffeine and a pill

Oh, Prozac and coffee back
That's it for me and you
New drugs of choice
We go and void all the highs that we once knew

We wore the crown
We painted the town
And held on for dear life
Got crucified and came back to life
With caffeine and a pill

Prozac and coffee black
It's breakfast time again
You and me, recovery
When will this shit kick in?
