

Victoria's Song

Danny Worsnop

I want sunshine on my face
I want sand beneath my toes
I want it with you, I want it with you
I want to lose track of time
I want to not know where I am
I want it with you, I want it with you

Because I love, love, love the feeling I get when you're close,
yeah
Yeah I love, love, love the feeling I get when you're close

Give me, give me your love
Baby give me, give me your love
Give me, give me your love
Baby give me, give me your love

I want to kiss under the stars
I want to dance in the rain
I want it with you, yeah I want it with you
I want to laugh until I cry
I want to wish for nothing in the world
And I want it with you, I want it with you

Because I love, love, love the feeling I get when you're close,
yeah
Yeah I love, love, love the feeling I get when you're close

Give me, give me your love
Baby give me, give me your love
Give me, give me your love
Baby give me, give me your love

I can't wait to waste away with age
I can't wait to not regret a day
I do it with you, do it with you
I can't wait to see you unannounced
I can't wait to tell you all the things I've been waiting to, y
eah

And give you my, give you my love
Baby give you my, give you my love
Give you my, give you my love
Give you my, give you my love
Give you my, give you my love
Baby give you my, give you my love
Give you my, give you my love
Baby give you my, give you my love
