

# Fire

Dante Bowe

Oh, oh  
I've been down so long  
Oh, I've been down so much, I've been down so much  
Trying to get back up, I can't get back up

I've been out for months, trying to get back up  
Got my friends with me, they was in the cut  
They're gonna show me love, been with me through worse  
Everybody knows life can hit reverse  
Need to go to church, gotta get it right  
Need to talk to God, God can get it right  
I remember back when I gave my life  
I didn't know back then I'd be criticized  
Put my name on wax, Instagram comments  
Talking about how I have up nothing  
Sacrificed my whole life for this  
And I ain't give them more than Birthday Christmas  
Oh, you must be proud, you just put me down  
If you're talking loud, stop running your mouth  
I've paid all my dues, can't walk in these shoes  
Working all night and the morning too  
Sacrifice the lamb and the real ones do  
I've been born again, y'all thought I was through

Coming back like Jesus on the third day  
Bringing you the gospel on replay  
Bringing you the gospel on replay  
Don't want me to win? Then ok

You can keep your number ones and awards  
I need fire  
And if the enemy wanna see or be  
I don't wanna play the radio or TV  
I'm talking to you, if you say it again  
I promise I'll sue

I don't need a invite to your birthday party  
I don't need to come around anybody  
Get 'em, God, get 'em, God, get 'em down, headlock  
Left, right, choke slam

Jesus is alive, I have been revived  
I am coming back and I got all the vibes  
Follow me to life, given glory to God  
Looking at my opps and they want me to die

Fire, I need fire  
I know I'll make it through the night If I have your fire  
I'm alive, I'm alive, I'm alive  
Fire, revived, revive, revive  
Fire, help me, God, I've been down so much  
Trying to get back up

Jesus, show me love, pick me from the dust  
Oh, pick me from the dust, I've been down so much  
Trying to get back up  
Jesus, show me love, pick me from the dust

I am not the one, I am not the dude  
Warned you  
Warned you
