

Free Falling

Dante Bowe

Tell me the story when You first saw me
What were Your thoughts?
Like did You crack a smile?
Did love run wild inside of Your heart?
Talk about the time when I crossed Your mind and it took Your breath away
And as You took me in, You were closer than my skin
No, I never had a better love

So beyond the four walls and [?]
I just wanna know You

Because I still remember Your voice when You called me
And I knew right then: this was love
I never lost the heart that You gave me
I never will
Because I'm still free falling, falling, falling, oh-oh, falling
Oh, I'm still free falling, falling, falling, oh-oh falling

What were You thinking
When You touched that leper and made him whole?
Or what about that woman
That pushed through the crowd just to touch Your clothes?
If the "friend of sinners" is what they call You that's what I'm gonna be
Because my only desire is to be like the King who ransomed me

So beyond the four walls and [?]
I just wanna know You
Come fill in this space so I can see Your face
I just wanna know You

I still remember Your voice when You called me
And I knew right then: this was love
I never lost the heart that You gave me
I never will
Because I'm still free falling, falling, falling, oh-oh, falling
I'm still free falling, falling, falling, oh-oh falling yeah

So take me higher
Take me further
Jesus, You're the only one I seek oh
Take me deeper
Wake up the wonder
Jesus, You're the only one I seek
So take me higher
Take me further
Jesus, You're the only one I seek ooh
Take me deeper
Wake up the wonder
Jesus, You're the only one I seek

So beyond the four walls and [?]
I just wanna know You
Come fill in this space so I can see Your face
I just wanna know You
