

# keep going

Dante Bowe

Yeah  
Heartache is heartache  
Pain is pain  
Trouble is trouble, it don't last always  
For some, the struggle has ended  
For some, it's begun  
But when we look back  
We'll see what we came from  
We gotta believe what we pray  
Believe what we preach  
Believe what we sing about  
Believe He's a king  
Controlling the narrative is out of our control  
The only thing left to do is let go and keep going

And through the valley, through the shadow, through the death (Oh, keep going)  
Even when there's nothing left (Put your face against the wind and keep going, yeah)  
Through the valley, through the shadow, through the death (Keep going)  
Even when there's nothing left (Alright)

Why you so worried? This is temporary  
Turbulence way up here gets scary  
No, your dreams are not imaginary  
It's gonna happen real soon  
I mean sooner than later  
'Cause there's a real God  
We're not just talking to the sky and He provides  
He's the water and the wine  
And halfway is where He meets us every time  
All He's asking us to do is let go and keep going

Through the valley, through the shadow, through the death (Oh, na-na-na, na-na-na, na-na-na, keep going)  
Even when there's nothing left (Put your face against the wind and keep going, yeah)  
Through the valley, through the shadow, through the death (Keep going)  
Even when there's nothing left (Oh, yeah-yeah-yeah)

Keep going a little bit further  
I see you getting a little closer  
All these days are getting brighter  
'Cause the night is waiting for the morning  
Keep going a little bit further  
I see you getting a little closer (Ooh)  
All these days are getting brighter  
'Cause the night is waiting for the morning  
And keep going a little bit longer  
I see you getting a little closer  
All these days are getting brighter  
'Cause the night is waiting for the morning  
Keep going a little bit longer  
I see you getting a little closer  
All these days are getting brighter  
So let go and keep going

Through the valley, through the shadow, through the death (Na-na-na, na-na-na, na-na-na, keep going)  
Even when there's nothing left (Put your face against the wind and keep going)  
Through the valley, through the shadow, through the death (Don't you give up now)

You know what you gotta do  
Don't give up too soon  
Keep going (Mmm)
