

Lean On

Dante Bowe

Oh, ooh, cause me everything
Don't wanna

I can be in my feelings, I can ge in my head
I ca reflet the pressure, I be quick to forget
And all the drama, we can monetize it
Why do we spend so much time on it?
Just might cost us everything
Just might cost us everything

I need someone to lean on (Lean on)
Everybody needs somebody to lean on (Oh)
Hey, and I hear the voices saying: "dream on"
But I know what's possible with love (Oh)

I can be so entitled, I can get in my way
I can also be patient and be anxious the same
Where's all the passion? Can we relocate it?
Why do we look in all the commonplaces?
Oh, just might cost us everything
Just might cost us everything

I need someone to lean on (Lean on)
Everybody needs somebody to lean on (Oh)
Oh, and I hear the voices saying: "dream on"
But I know what's possible with love (Oh)
Hey, I need someone to lean on (Lean on)
Everybody needs somebody to lean on (Oh)
Yeah, and I hear the voices saying: "dream on"
But I know with possible with love, love (Oh)

Don't be acting on the stage and forget your lines
The grass ain't always greener, said the grass ain't always greener
No, the grass ain't always greener on the other side (Oh)
The grass ain't always greener on the other side
I've been I my head a lot, contemplating, baby, oh
I've been in my head a lot, I've been thinkin lately, oh
I should get better at communicating
But my phone dropped the call, I got bad connection
I be in the aeroplane, I'm too fly
Oh, I dropped seven stacks for the coat
It's a shame, but It's what she wrote, uh
Oh, I got a lot of enemies, got night vision, hey
Oh, you'e the better part of me you fit different
Mmm (Oh)

And I just need someone to lean on (Lean on)
Everybody needs somebody to (Oh)
And I hear the voices saying: "dream on"
Dream on
