

okay.

Dante Bowe

It's funny how things change in 'bout a span of a year
Guess I didn't see it coming
Now there's blessings in here
When I was younger, saying prayers to the Big Man upstairs
I told Him if He walked on water, then I know I'm secure
I might have 99 problems, but my faith ain't one
And if I always try to solve them, what is faith anyway?
I'll be okay
Okay, yeah

Hands up, if you feel me now (Now, now)
If you know what I'm talking about (Know what I'm talking about)
Ain't no need to try to figure out
What God's already working out
Hold tight, don't be worried now (Don't be worried now)
Be cool if it takes a while (It takes a while)
Ain't no need to try to figure out
What God's already working out (Working out)

Work it out in a million ways (Oh, yeah)
Wiped a million tears from my face (Oh, from)
The road ain't always easy (Oh, no)
But I never lost my faith (Lost my faith)
It's why I gotta say
Worship, two hands up, shout out to my God
That's my guy for life
Never done me wrong
When I feel like I've had all I can take
Like I'm 'bout to break, He's the one I
Call

Hands up, if you feel me now (Lift your hands up now)
If you know what I'm talking about (If you know, if you know)
Ain't no need to try to figure out (Figure out)
God's already working out (Already working out)
Hang tight, don't be worried now (Hang tight, hang tight, hold on)
Be cool if it takes a while (Hold on, hang tight, hold on)
Ain't no need to try to figure out (Hold on, 'gure out)
God's already working out (Well, He's already working out)

When I'm down and out, You'll be my hero (My hero)
And even if I have to start from zero (From zero)
Even though I know life goes up and down
I'll sit here and play my piano, ayy (Oh-oh-oh-oh)
Time to talk, it's been much too long since I prayed (I prayed, Pray!)
I know somehow (Somehow), I'm alright now
Too much good not to be okay

Hands up, if you feel me now (If you feel me now)
Oh, if you know what I'm talking about (If you know what I'm talking about)
Ain't no reason to figure out
What God's already working right now, right now (Working right now)
Hang tight, don't be worried now
Be cool if it takes a while (If it takes a while)

Ain't no reason to figure out
What God's already working out

Yeah, hold on to me, don't let go (Don't let go)
Yeah, hold on, just keep holding on (Keep going now)
Hey, just hold on (Hey, you've come this far)
Let go (Oh, oh-oh, oh), don't-don't you let me go
Keep it up now, now (Hold on)
Hold on (Keep it up now, now, now)
