

# Take Me To The River

Dante Bowe

Come and jump in all that are broken  
Come and jump in all that are wounded  
Come and find yourself all that are orphans  
Joy like a river is steady flowing

And there is something in the water  
Something in the water-er  
There is something in the water  
Something in the water-er  
Whoa

Come and jump in all that are broken  
Come and jump in all that are wounded  
Come and find yourself all that are orphans  
This joy like a river is steady flowing

And there is something in the water  
Something in the water-er  
There is something in the water  
Something in the water-er  
And there is something in the water  
Something in the water-er  
There is something in the water  
Something in the water-er

Take us to the water  
Put us in  
We wanna dance in the river  
New life begins, oh  
Take us to the water  
Put us in  
We wanna dance in the river  
New life begins, oh  
Take us to the water (Give me Your smooth water)  
Put us in (Oh)  
We wanna dance in the river (Give me Your smooth water)  
New life begins, oh  
Take us to the water  
Put us in (I gotta go)  
We wanna dance in the river (I gotta go)  
New life begins

'Cause there is something in the water  
Something in the water-er
