Goodbye

Dante Thomas

Yeah, bye bye bye...

Have you ever loved someone so much it hurts to see them leave
and you hope it won't be the last time that you will see them.
So you try your best to stay strong because they're just a phone call away.
But to hear their voice with no touch just aint the same, just aint the same
So give them...

One last kiss
one last cry
alittle romance before we say goodbye (bye)
dont worry friend you'll see them again
see them again.
Give them one last kiss
one last cry
alittle romance before we say goobye (bye bye)
Don't worry friend you will see them again (see them again)

Have you ever missed someone so much you can't even sleep?
And your days and nights start to feel like 7 day weeks (7 days weeeks, 7 da
y weeks)
You start to count the days you have left, anticipation makes you smile
Cause you know it'll be all over in just a few miles (a few miles)
So give them...

One last kiss
one last cry
alittle romance before we say goodbye
bye (say goodbye, bye)
Don't worry friend you'll see them again (see them again, see them again)
see them again

Time makes the heart grow fonder (heart grow fonder)
true love it will never wonder (never wonder)
hold on (hold on, hold on)
never letting go (never letting go)

Give them...
One last kiss
one last cry
alittle romance before we say goodbye (say goodbye)
Don't worry friend you'll see them again (see them again)

One last kiss
one last cry
alittle romance before we say goodbye
Don't worry friend you'll see them again (see them again)
I'll see you again

One last kiss
one last cry
altitle romance before we say goodbye (leave my life)
Don't worry friend you'll see them again (see them again, see them again)
one last kiss
one last cry
alittle romance before we say goodbye.
dont worry friend you''ll see them again, (see them again) see them again...
