Dead Inside

Danzig

How does it feel when you're dead inside Lost someone to the other side Felt so bad 'cause you didn't cry Couldn't she'd a tear cause you're dead inside

How does it feel when you're cold inside Emptiness constant at your side Freezing ever secret thought you hide Motionless, frozen hell design

How does it feel when you're lost and blind Loneliness is your only guide And how dies it feel when you're black inside Numbness calls from your inner eye
