

## Sadistikal

Danzig

Deep in your eyes  
I know they lie  
As the night must die  
Every morning to give birth to the day

So must autumn die  
To born a hatred  
Until now unknown  
Every hell I know I will make you feel

Deep, deep  
Down you go  
My love is your hell  
To suffer and cherish

Deep, deep  
Down in your soul  
My love is your hell
