White Devil Rise

Danzig

White devil rise
White devil rise
White devil rise
White devil rise

You speak my name, I do not mind
To give me credit is so kind
I'm flattered that I have your fear
You wake the sleeping demon here

White devil rise
White devil rise

I hear the lies
Brotherhood at my side
You call me white, you bet I am
Now see my beast rise up in flames

White devil rise
White devil rise
White devil rise
White devil rise

White devil rise
White devil rise
White devil rise
White devil rise

Stare at the ashes of the ages
Stand a devil up inside
Pray to a god that cannot help you
My beast will feast upon its eyes

White devil rise
White devil rise
White devil rise
White devil rise
