

## Buss Me

Dappy

Fear God, no man (no man, no man, no man)  
Mama cried 100 times and that's all on me (on me)  
Same time I make money  
Only you understand me, a promise won't do no damage  
I'll do you right (right, right, right)

When the sun does down I'll be there, as long as you need (as long as you need)  
I wasn't like this before you, let me reassure you you'll see  
Cause you're more than just my type, trust me  
I find it hard to show emotion but you know, down to ride  
Cause when it's on top, you know you an pull up, and that's good with me  
You know I got you baby, trust me  
Come over here and just buss me

Just take my hand  
I'll be everything you need, I'll never leave, believe in me, it's meant to be  
Just take my lead and you'll see  
Do you and I have an understanding, I know I might be hard to manage  
I've never been this sure

When the sun does down I'll be there, as long as you need  
I was never like this before you, let me reassure you you'll see  
Cause you're more than just my type, trust me (trust me)  
I find it hard to show emotion but you now know, down to ride  
Cause when it's on top, you know you an pull up, and that's good with me (good with me)  
You know I got you baby, trust me (trust me)  
Come over here and just buss me

Cause you're more than just my type, trust me  
I find it hard to show emotion but you know, down to ride  
Cause when it's on top, you know you an pull up, and that's good with me (good with me)  
You know I got you baby, trust me (trust me)  
Come over here and just buss me

Cause you're more than just my type, trust me (trust me)  
I find it hard to show emotion but you now know, down to ride  
Cause when it's on top, you know you an pull up, and that's good with me (good with me)  
You know I got you baby, trust me  
Come over here and just buss me
