

Count On Me

Dappy

I feel you drifting
I push and you pull away
I should've seen this coming
Now we fight over nothing
Yeah so don't tell me I'm crazy
One more time it feels like you hate me
But when I'm on the road again
I know that you're the one waiting

So, say your piece
They'll tell you that you're mad not to leave
But without you I'll go insane
It's all I need you to stay with me

Stay with me
They say pressure makes diamonds
But they not crystal clear
I should never question your motives
Now, now why cause your heart is sincere
So, don't tell me I'm crazy
One more time you hate me
But the harder it gets
The more that I'm definite
You're not a maybe

So, say your piece
They'll tell you that you're mad not to leave
But without you I'll go insane
So, to stay, stay with me

So, stay here with me
I've been sent to keep you warm
So, you can always count on me
That's for sure
I said that's for sure

Whenever you feel like walking out the door
Not only do you leave you keep out on my soul
Don't make me lose my mind
Can't get back none of this time
You wasn't exactly easy to find
You light up my world at its darkest
Leave me or keep me I'll love you regardless
I felt this the minute I crossed the limit
I thought we was finished as quick as it started
It's hard to sleep when you're not in my bed at night
I front but really its peak so let's get it right
Back to the times you and I were getting high
I even want to be with you on the other side
So, can you try and try and stay
I just can't wash these sins away
All I can do is sit here and pray that

You just stay with me
They'll tell you that its mad not to leave
But without you I'll go insane
Beg you to stay, stay here with me

So, stay here with me
Cause I was sent to keep you warm
So, you can always count on me
I say you can always count me
I say you can always count me
I said that's for sure
I said that's for sure□
