

Lingo

Dappy

(First class flight, bed by the window
Foreign ting with me had to switch the lingo)

(Look, first class flight, bed by the window
Foreign ting with me had to switch the lingo
Baby, get low, she said sí sí)

Let's state the facts, came from the flats
First one to put the whole scene on the map
I said what I said, go check the stats
Made like 50 mil off a 5 pound hats
And I don't need to cap
I lost count of plaques
255,000 tickets sold, you do the math
Blew from Channel U
Now we're doing 23 arenas in 2022
Hold dat
Ain't bout the racks
I said it would be a wrap when N-Dubz come back
Aye, Dappy is this, Dappy is that, but Dappy can sing do drill or rap
When you get the dough, they start breading it
I been in the kitchen for years, so they wanna know how I make my recipes
I'm finna keep cheffing it
There's too much at stake, so here's corn for the beat, I need to pepper it
They said we were irrelevant until we turnt the O2 to the O4
Shit we could have done the Emirates
Now I'm in my element, pick a melody, this is legendary
When I'm dead they gon remember me
Pretty face, big back like Steffanie
Tried Burna Boy but it didn't effort me
As if I'm tryna catch me a felony
I'll trade the nyash just like an NFT
Was you real with me or was it a lie?
Was you in love with me or was it just the life?
If the money weren't about and I didn't have the clout
Would you ride the wave with me or leave me in the tide?

When times were hard, I nearly lost my mind
When I was sitting in the dark, they left me swimming with the sharks

Look, first class flight, bed by the window
Foreign ting with me had to switch the lingo
Sweetie, get low, she said sí sí, entiendo
Aye, show me the back, get on your tip toes
Then twist up your neck and watch the ting grow
KiKi, get low, she said sí sí, entiendo

You know the ting, we all love to win
With a bad latina, showing off skin
She misbehaves, she loves to get funky on Friday
She listens to Dave
Ah, don't make me bring Tarzan back from the grave
If I swing round there just know I'm on rage
I had no regrets back then but now I finna act my wage
I want my bit of the coin like Elon Musk
I'm setting the pace they can never keep up
Blood, sweat and the tears, steady switching the gears

I'm ahead of all my peers like a Tesla truck
They love popping bottles with you when you do well
Remember having to bill zoots in my nude cell
Don't take the piss you prick, you acted like I didn't exist when I couldn't
get bail

When times were hard, I nearly lost my mind
When I was sitting in the dark, they left me swimming with the sharks

Look, first class flight, bed by the window
Foreign ting with me had to switch the lingo
Sweetie, get low, she said sí sí, entiendo
