Dappy

Woah, yeah

Dude, our style's expensive
Last week, I spent twenty-one bills
This time last year, I was in the can doing like badman
Now I got a deal
f*ck boys like, "Where you been?"
Real ones like, "I know you'd win"
How many goals did I score last week?
It's lookin' like twenty-one nil
Aw shit
She see the way I'm livin' on Insta'
Now she wanna try out trill
Aw shit
Now she wanna live in a house on the hill
Like Jack and Jill, like Jack and
We know you're leng, way more than a ten
But d'you know the drill?
'Cah when it all comes tumblin' down
You go elsewhere to get a cheap trill
Where were you when they rejected my appeal?
I only see you when my drip's on spill
They all wanna ride in the passenger side
'Til you end up in Scrubs or the 'Ville
I really used to love wildin'
Think how much P's I splashed on designer
But how am I gonna dash all this cash
When I can get it free on a rider

I really don't care, really out here
Crash that man's pear, know them ones there
Maybe not flares, my jeans are so rare
I'm drippin', no tears (Splash, splash)

Splashin' on Louie (Louie), Fendi (Fendi)
We're icey (Icey), pricey (Pricey)
Run down the bust-down (Woah)
Plenty envy

Yo, baby, you look so elegant
In my element
Take this elephant
Everything's wet
She might need wellingtons
Three top 40's, you know man's killin' 'em (Killin' em)
Real old-school like (No, no, no)
Sixteen, man step with a samurai
Big boys scrammin' now
Slow man, hammer time
What's man chattin' 'bout?

Bonnie let somethin' fly
Man talk they ride on Russ
Them man are broke yutes, so they ride on the bus
Try talk on my name like he's tough
'Til his head got bust
Can't lie, I was chuffed

She wants me but I can't get cuffed
Slow down pace, boo, it's not love, just lust
Can't pick, now they gyal waan cuffs
Old-school road-sweeper like Gus

I really don't care, really out here
Crash that man's pear, know them ones there
Maybe not flares, my jeans are so rare

Remember sittin' in my cell
Tryna turn a new leaf
Stressed, burnin' down Amber
When man tried to provoke
I was always on smoke
'Til they caught me on camera
Done it on camera
And it get phys' like Fanta
Served light and dark like a panda
If I see them, I might take out my anger
