

# Weight of the World

Dar Williams

You wanna take it off  
It's the weight of the world  
You want to set it free  
Just for today

Can't always be the one  
To heal everything  
And the weight of the world  
Was never yours to keep

You can spend so many days  
Trying to make the darkness go away  
But it's the weight of the world  
It's the curse of the worldly ways

Can't keep it inside  
So go on just let it out  
It's the weight of the world  
If you ever had a doubt

You wanna take it off  
'Cause it makes your body hurt  
It's the weight of the world  
It was never really yours

Can't keep it inside  
Oh, you know you gotta set it free  
'Cause the weight of the world  
Was never yours to keep
