

High

Dara Maclean

I don't care anymore
What I sound like
I look like
You're my portion Lord
In your eyes
My delight
Once you've tasted freedom
It's the highest you can be
Nothing can bring you down

You and me so compatible
Never felt love like this before
Out of this world, supernatural
So free from me
You and me so compatible
Never felt love like this before
Out of this world, supernatural
So free from me

So free from me
Out of arms reach
And I can't even tell you how my heart speaks
It's hard for me to focus on my heart beat
When all I see is you you you you
You won't quit
You don't stop
Nothing can change who you are
I don't need another love

Love comes in many shapes, sizes and agendas
But this love has no conditions and no endings 1000 life times
No better friendship
Love won't quit on me
This ain't a facade
I ain't pretending
You just want the real me
No hesitation
Feels so light

I don't care anymore
What I sound like
I look like
You're my portion Lord
In your eyes
My delight
Once you've tasted freedom
It's the highest you can be
Nothing can bring you down

You and me so compatible
Never felt love like this before
Out of this world, supernatural
So free from me
You and me so compatible
Never felt love like this before
Out of this world, supernatural
So free from me

So free

So free

So free from me...
