

## Never Alone (Interlude)

Dara Maclean

Love come quickly  
You always find me  
When it feels like it's just  
Me up against the world  
Your arms are there  
You remind me I'm never alone

Love come quickly  
You always find me  
When it feels like it's just  
Me up against the world  
Your arms are there  
You remind me I'm never alone

When it feels like it's just  
Me up against the world  
Your arms are there  
You remind me I'm never alone

Your arms are there  
You remind me I'm never alone
