

# Abandon

Dare

The light of day is fading fast outside  
I cannot hide the way I feel inside no  
I learned to live with something I can't find  
I will never learn  
I will take my turn

I can't forget the things that you said to me  
So deep inside my heart that can't break free

I can see your eyes  
I can see what you're after  
And it's no surprise to me

If you abandon me  
Tonight will last forever  
I'm stranded here inside this prison called my soul  
If you abandon me  
You turn your back forever  
You will abandon me  
Yeah

And still alone here I hear her voice  
It takes my breath away

I have no choice  
I can see your eyes  
I can see what you're after  
And it's no surprise to me

If you abandon me  
Tonight will last forever  
I'm stranded here inside this prison called my soul  
If you abandon me  
You turn your back forever  
You will abandon me  
You will abandon me

If you abandon me  
Tonight will last forever  
I'm stranded here inside this prison called my soul  
If you abandon me  
You turn your back forever  
You will abandon me

If you abandon me  
Tonight will last forever  
I'm stranded here inside this prison called my soul  
If you abandon me  
You turn your back forever  
You will abandon me
