

## Belief

Dare

Hey you, with the lights in your eyes  
Tell me where do you go now  
Rising above the clouds to your pride  
Turn around, my precious one

Close your eyes my son, don't you be afraid  
Time has only just begun  
Across the ocean wide I will hear you call  
There will be no need to hide

Can you feel the change drifting over this land?  
Do you know how it feels now?  
As years grew too late for the dreams we had planned  
We'll try again my precious one  
So turn around my son, don't you look away  
Life has only just begun  
Across the open sky, breathe into your life  
There will be no need to hide

Oh, look what they've done to me  
Running around with my head in the clouds  
Gonna set you free  
Oh, look what they've done to you  
Turning around, get your feet of the ground  
Say what you say... Stand with the proud

So turn around my son, don't you be afraid  
Life has only just begun  
Across the open sky, breathe into this life  
There will be no need to hide

Oh, look what they've done to me  
Running around with my head in the clouds  
Gonna set you free  
Oh, look what they've done to you  
Turning around, get your feet of the ground  
Say what you say... Stand with the proud
