

Breakout

Dare

Break out tonight
Break out tonight
Break out tonight
Break out tonight
Break out tonight
Break out tonight

I was hunted like a wild dog
Just a creature of the night
I could hear the sirens screaming
But everything would be right
I was cornered like a scorpion
I could still feel the devil inside
This time I'm moving in slow
Hey, hey let it go

Break out tonight
Break out tonight
Break out tonight
Rocking through the night
Break out tonight
Break out tonight
Break out tonight

I came down from the dead zone
With a search light on my tail
I was heading for the shelter
Hiding from the county jail
I was screeching down the highway
Just a fool for the city a love
This time I'm moving in slow
Hey, hey let it go

Break out tonight
Break out tonight
Break out tonight
Rocking through the night
Break out tonight
Break out tonight
Break out tonight
Burning up, burning up
Rocking through the night

Well, I spent ten years on the inside
I could still see the lights
From the city keep shining on
Everybody looking now
Wrong side up nearly skinned alive
But a Fool for the city I love
This town is gonna blow
Hey, hey let it go

Break out tonight
Break out tonight
Break out tonight
Rocking through the night
Break out tonight

Break out tonight
Break out tonight
Burning up, burning up
Rocking through the night

Hey, hey let it go
Hey, hey let it go
