

Don't Let Go

Dare

I heard a love song played on the radio
She didn't heard it was far away
I turned around to find I was all alone
She never used to act that way, oh no no
I found a torn out page of her lyric book
An empty bottle lying by her side
She said, don't let go
It said, don't let go
'Cos I can't follow you tonight

I can't follow you, I see you go
No, I can't follow you, I see you there
Don't let go, baby
'Cos I can't follow you tonight, all right
I can't follow you tonight

There was a message left on the answer phone
I couldn't understand a word she said
She had a lovesick mind but you never know
She always used to act that way
She said, don't let go
It said, don't let go
'Cos I can't follow you tonight

I can't follow you, I see you go
No, I can't follow you, I see you there
Don't let go, baby
'Cos I can't follow you tonight, all right
I can't follow you tonight
