

Grace

Dare

There's a light outside her window
Flickers in the dark
And the radio is playing
Telling her to start

Another day
Here in her heart

And her hair was gently falling
Walking through the rain
When I saw her by the station
Climbing on the train

Another day
Here in her heart
Another day

Then I saw her face
Her amazing grace
Take me to the place
Where I can be near her
Then I saw her smile
I waited for a while
Take me to the place where I
Can be with her

Then she sat down beside me
We talked for a while
I was lost in the moment
Captured by her smile

She held my hand
On that summer day
She took my breath away

Then I saw her face
Her amazing grace
Take me to the place
Where I can be near her
Then I saw her smile
I waited for a while
Take me to the place where I
Can be with her

There's a light outside her window
Shines on her face
And I never will forget her
Her amazing grace

Then I saw her face
Her amazing grace
Take me to the place where I
Can be with her
