

# Real Love

Dare

When you're lonely  
And your heart is cold and grey  
Lay your head on my shoulder and cry  
I was lonely, babe  
I was reaching out  
Then I found someone  
And there was no doubt  
I was lost, babe  
But now I found real love

Real love, real love  
When you kind of cry inside  
Real love and you need someone  
When you feel the flame inside  
When you can't go on, babe  
And all is said and one  
Just take my hand  
And I'll be the one  
If you're lost, in me you'll find  
Real love, yeah yeah yeah

If takes a lifetime, babe  
I'll be reaching out  
Now I found someone  
And there ain't no doubt

Real love, real love  
When you kind of cry inside  
Real love and you need someone  
When you feel the flame inside  
If takes a lifetime, babe  
I'll be reaching out  
Now I found someone  
And there ain't no doubt  
I was lost, babe, but now I found  
Real love  
I was lost, but now I've found  
Real love, yeah yeah yeah
