

## Return The Heart

Dare

I will return tomorrow  
Valleys of green I'll follow  
And is it any wonder the ocean's so wide  
I will return this heart of mine

I can forgive the sorrow  
Rivers run deep to streets of gold  
And it's so hard to imagine the sky was so bright  
I will return this heart of mine

I could never hope for another like you  
Follow all your dreams and you will find  
Your road is paved with gold  
Oh oh oh...

Hear me now  
We will return  
We will return  
One day I'll return this heart of mine... yeah

One day I will return  
One day I will return

Hear me now  
I will return  
We will return  
One day I'll return this heart of mine

I will return  
We will return  
One day I'll return this heart of mine

One day I will return this heart of mine  
I will return this heart of mine
