

## Silent Hills

Dare

And when those dark skies come to surround me  
And the road was lost to the ones we love  
So many times, my love, you carried me  
To your mountain high as the waters rise

And those winds blew so cold then  
Somehow I knew we'd ride the storm

So come, my love, and we will dance again  
By the side of these silent hills  
Come, my love, and we will dance again  
By the side where the waters run

And when the ground I walk  
Falls beneath my feet  
And the tunnels light seems so hard to reach  
Those were the times  
You were there in the darkness again  
Your guiding light, in the cold dark

So come, my love, and we will dance again  
By the side of these silent hills  
Come with me and we will ride again  
By the side of these silent hills

There were so many dreams  
Let the light shine on you  
And when the evening comes, we'll dance

And I'll see you soon  
On these silent hills, my friend

So come, my love, and we will dance again  
By the side of these silent hills  
By the side of these silent hills
