

## Storm Wind

Dare

And I follow the flame  
I still follow the flame  
When the storm wind blows

And I said goodbye to the innocence  
Fading with the fire in my heart  
And what was lost in the ashes of my dream  
Disappeared like the mist in the morning sun

And I wondered where this road would lead me to  
And I closed my eyes  
And prayed I'd make it through  
And you said

Son, there's a storm wind coming  
Follow the flame in your heart  
And he said  
Son, when the storm wind blows  
Follow the flame in your heart  
And I follow the flame

If I could ride the wings of time  
I'd fly across the darkness to your heart  
And you'll meet me there  
Where the storm wind blows  
By your side I will be again

And I wondered where this road would lead me to  
And I closed my eyes  
And prayed I'd make it through  
And you said

Son, there's a storm wind coming  
Follow the flame in your heart  
And you said  
Son, when the storm wind blows  
Follow the flame in your heart  
And I follow the flame

And I follow the flame  
I still follow the flame  
When the storm wind blows
