

Surrender

Dare

I won't surrender
Never give you my love
I won't surrender till the fighting is done
I won't surrender
Never give you my love
I won't surrender till the fighting is done

He was standing in the darkness
In the land of the blood red sky
And they called him the silent warrior
Who was ready to die
I could feel the fire burning
Talking about it

I won't surrender
Never give you my love
I won't surrender till the fighting is done

They called her the iron lady
Can be crying with shame
Doesn't touch her
She got one foot in the grave
And a cross on her spine
I could see the houses burning

I won't surrender
Never give you my love
I won't surrender till the fighting is done
I won't surrender
Never give you my love
I won't surrender till the fighting is done

When you can't carry on
And you're turning away, oh baby
When the feeling is gone
And there's nothing to say

I won't surrender
Never give you my love
I won't surrender till the fighting is done
I won't surrender
Never give you my love
I won't surrender till the fighting is done
