

Flower Night

Daria Zawiałow

Eyes
Decected on my walls
I think they're coming now

Fight
It's only in my head
Infected copy brain

Summertime, sumertime
Summertime feeling

Love me till the night
Before the stars tear us apart
Love me till the night
Before they come and take me away
Love me till the night
Before the moon tears us apart
Love, till the last cry
Before the tears dry up and go away

Slice
Of rainy summer night
It's just a couple drops

Fight
It's only in my head
I want this to the end

Flower night, flower night
Flower night feeling

Love me till the night
Before the stars tear us apart
Love me till the night
Before they come and take me away
Love me till the night
Before the moon tears us apart
Love, till the last cry
Before the tears dry up and go away

Summertime, sumertime
Summertime feeling

Love me till the night
Love me till the night
Love me till the night
Love me love me love me
Before the tears dry up and go away
