

Electric

Darin

Wasn't looking for nothing here tonight
Only came for the music and the lights
Didn't know I needed more
Then you walked in caught me by surprise
One look and you got me hypnotised
The way you glide across the floor

When you pull me closer all my troubles disappear
Is it me or is it getting hot in here

I'm falling in love got me feeling electric
Just can't get enough I won't ever forget this
Cause the way you got me now
My head is in the clouds
I'm never coming down
Yeah the way I'm falling in love got me feeling electric

I'm not even gonna try and play pretend
I don't ever never want this night to end
So come and give me more
The way that our bodies synchronise
Touch me and I'm feeling more alive
Now you've opened up that door

When you pull me closer all my troubles disappear
Is it me or is it getting hot in here

I'm falling in love got me feeling electric
Just can't get enough I won't ever forget this
Cause the way you got me now
My head is in the clouds
I'm never coming down
Yeah the way I'm falling in love got me feeling electric

Let's go until till the morning
We know we're going all in
Ain't nothing gonna stop this, stop this

Let's go until till the morning
Ain't nothing gonna stop this, stop this, stop this

I'm falling in love got me feeling electric, electric
Just can't get enough I won't ever forget this
Cause the way you got me now
My head is in the clouds
I'm never coming down (never coming down)
Yeah the way I'm falling in love got me feeling electric
