

## So yours

Darin

I can tell that you ding and I dig it too  
What's it gotta do, I'm falling for you  
And you know what you want and I'll find a way  
Someway  
I need to be where you are  
Na nanana na  
Can't keep away, not too far  
Na nanana na

You know that baby, I like you  
Do you take me back?  
Say that you want me, 'cause I want you back  
You need to get closer to know what you have  
I'm yours, so yours  
Baby, I can't take the distance, no more  
Say that I got you, don't put me hold  
Now I am here 'cause I want you to know  
I'm yours, so yours

Tired of thinking of things that could go wrong  
Now's the time and I've waited so long  
Gotta know what you think, if you feel the same  
The same  
I need to be where you are  
Na nanana na  
Can't keep away, not too far  
Na nanana na

You know that baby, I like you  
Do you take me back?  
Say that you want me, 'cause I want you back  
You need to get closer to know what you have  
I'm yours, so yours  
So youuuuurs,  
So youuuuurs,  
I'm yours

Baby, do you look back at me  
I just want you to see all that's fine in me  
I'll be all what you need  
I'm yours, so yours  
Baby, I can't take the distance no more  
Say that I got you, don't put me on hold  
Now I am here, 'cause I want you to know  
I'm yours, so yours.

So youuuuurs,  
So youuuuurs,  
I'm yours, so yours
