

# Have A Good Time

Darius Rucker

Been running this road, both feet on the gas  
Working too hard, going too fast  
Till life reminded me I had to slow it on down

Instead of worrying about things I can't change  
Gonna lay in the sun and dance in the rain  
Do a little more living right here in the here and now  
And figure out how

Have a few hell yeahs  
Have some back porch hallelujahs  
Sipping on a sunset  
Where the good Lord's talking to you

Ride the lows, chase the highs  
Fall in love and love this life  
Place your bets, no regrets  
And don't forget to have a good time

Yeah, breathe it all out, take all in  
Gonna call up a couple of good old friends  
And along the way maybe make a few more

Take a second chance on the chances I missed  
Put a few new checks on the bucket list  
Hey y'all, ain't that all what we're living for?

To have a few hell yeahs (hell yeahs)  
Have some back porch hallelujahs  
Sipping on a sunset (sipping on a sunset)  
Where the good Lord's talking to you

Ride the lows, chase the highs  
Fall in love and love this life (this life)  
Place your bets, no regrets  
And don't forget to have a good time  
Yeah, have a good time

Just my 2 cents, maybe ain't worth much  
But it just might be enough

Don't forget to make it count  
Don't forget to sing out loud  
Don't forget the salt and lime  
And don't forget to have a damn good time

And have a few hell yeahs (hell yeahs)  
Have some back porch hallelujahs (hallelujahs)  
Sipping on a sunset (sipping on a sunset)  
Where the good Lord's talking to you (Amen)

Ride the lows (ride the lows), chase the highs (chase the highs)  
Fall in love and love this life (that's right)  
Place your bets, no regrets  
Don't forget to have a good time  
(Have a good time, have a good time)  
(Have a good time, have a good time)

Have a good time (have a good time, have a good time)  
Come on, come on, say it with me now (gave a good time, have a good time)  
(Have a good time)
