

Possibilities

Darius Rucker

I've been keepin' all my dreams inside
And I've been sayin' all my prayers at night
Waitin' on the sun to shine a light
On the possibilities

Cause I ain't done living the life I meant to lead
And I ain't done lovin' the ones who care for me

The hope and the strength and the love
And the smiles and the laughter
Of friends and family
Add it up, you'll find no limit
To the possibilities

The left and the right and some faith in the fight
And your courage is all you'll ever need
To help us all believe
In the possibilities

Standin' up and feelin' strong
I'm singin' out a hopeful song
While the world outside is singin' back to me

Now I'm feelin' from the ocean shore
Reachin' to the moon to make sure
All my dreams come true
Cause I'm gonna fight and walk out of this room
I'm gonna walk out of this room

The hope and the strength and the love
And the smiles and the laughter
Of friends and family

The hope and the strength and the love
And the smiles and the laughter
Of friends and family
Add it up, you'll find no limit
To the possibilities

The left and the right and some faith in the fight
And your courage is all you'll ever need
To help us all believe
In the possibilities

The hope and the strength and the love
And the smiles and the laughter
In the possibilities yeah
Won't you help us all believe

The left and the right and some faith in the fight
And your courage is all you'll ever need
Help us all believe
In the possibilities

The hope and the strength and the love
And the smiles and the laughter
Of friends and family
