

Chrysalis To Butterfly

Darius

Night-time

We're not alone if we dream together

Of the good times

We got through coz we won't surrender

Head on my shoulder glass of red wine

If we left the night behind

We have won this already

La la la li, la la la li

I watched you reach for the sky

La la la li, la la la li

Chrysalis to butterfly

Sometimes

You don't win gold, you don't win silver

At the right time

You'll find bronze makes you the winner

Tears running freely, and I dry from your cheek

If you left the night behind

You have won this already

La la la li, la la la li

I watched you reach for the sky

La la la li, la la la li

Chrysalis to butterfly

To butterfly

Kiss your lips and watch you fly

My butterfly

Chrysalis to butterfly

It's bedtime

Emotions chase us our dreams will follow

It's a good time mmmmm

For me to give you the strength I borrowed

Sigh when I hold you

Last drop of wine

If you left the night behind

I have won this already
