

Fight!

Dark Age

It shakes your body
Don't fuck around
'Cause you've been fooled
Trapped under native ground
And you feel old
Lined from the past
It's what it takes
'Cause nothing is steady to last

You think you feel alive?
You've been wrong
All wrong
So come and fight
Stand up and fight!

And the days without the pain
Will come again
When you feel defaulted
Feel insulted
No one will hold your head

All pretty sold
Your arms are strong
Grab all your weapons
Don't mess no day
I hold your crown in a thousand worlds
A second bill
Is all to thrive
Stand up and fight
I want to fight

Reload your weapons
Take 'em down

I say you fight
Fight fight
I want to fight
Fuck you!

It's been all inside
They want to be way
Over you and over you
Seems there is a way you will find some
Peace tonight
