

Glory

Dark Age

It's been so hard
To line in for a better life
But I don't know anything
That's come close to this
Wonderful glory

No
I don't feel it anymore
All the love in this world
And not being with you

Don't try to erase me

It's been going on
Going on far too long

And all the pain, it won't just
Take me home
From where I come
I need to follow

Quietly silently I fall

No
I don't feel it anymore
It's turning into memories here
For me and you

Coming down
Coming home
And then
A light of hope
It all
Comes together

Close your eyes
