

My Saviour

Dark Age

Bring back the days
Where you and me were one
Fighting the world
As brothers
Against everyone
My friend
I thank you
For every single day
Even in darkest hours
You stood next to me

I would have been lost here
Dead and gone
Rolling the dice for all things to come
I would have been lonely from day one

You were my saviour
Again and again

I want to thank you
In a very special way
I will give my heart to you
'Cause music is the way
I owe my life
To the Gods of Rock 'n' Roll
Even in darkest times
Music saved my soul

I'm missing the days
Missing the times
Let life go on
I'm missing their lives
Missing their ways
Let life go on
