

# Misanthropic Invocation

Dark Fortress

Forgotten, the poisoned words of love  
Tempted by the chalice of dissolution  
Invoking the spirits of unholy origin  
A flow of orgasmic fire dwells within me  
Chaos is my prophecy

Never to be lost again in this  
soulconsuming dimensions  
Venomous emotions of love faded away  
The enigma of death I've solved  
For my salvation is your damnation

Can you see my shadow in the flickering  
candlelight?  
A shadow that offers you insight into  
Uziel's visions  
Can you feel the presence of woeful souls  
in this moonlight night?  
Somnabulists amongst a deceptive race

I've seen the truth  
Desecration was the key that opened my eyes  
I am your inner tyrant  
Endless scorn is my revenge  
Chaos, my prophecy - Asphyx is thy forseen fall  
Asphyx is me
