

## Villainous

### Dark Lotus

Psychotically villainous as I'm killin' this shit  
The very top of your head is where I'm drillin' this bitch  
Drop in a straw, drink in and suck it all out  
Your eyeballs sink in and fuckin' fall out  
I got my own murder special on A&E  
They got a big burly biker guy playin' me  
A true cannibal crime boss with fat neck tats  
I choke em all with one hand but their neck snaps

Say hello to the bad guy, bye to the sunlight  
When the dust settles, one stands in the gunfight  
Call me nefarious, diabolical and vicious  
When you get home and your family is missing  
Feelin' this, killin' this, for so many ways  
Watch your blood spray then bodies lay, weeks not days  
Scattered like leaves off trees, strewn about  
Each one planted with a lotus cross in it's mouth

Wicked, sinister  
Horrible and more  
Death is beating at your door  
Unlock the villainous  
Dark Lotus  
Murder isn't for the foul  
Take away your smile  
The crows have watched you awhile  
Unlock the villainous  
Dark Lotus

Yo, I'm Darth Vader without his lightsaber  
I'm the Joker's laughing gas in the face of the Caped Crusader  
Villainous, feelin' this, venomous like I'm Eddie Brock  
On the building, locked and loaded as if I was Deadshot  
The undertaker from the old school when he used to rock the tie  
And tell everyone to rest in peace, wanting for them to die  
The villain stroking his moustache  
While the damsel's tied to the train track  
And the train is soon approaching, there's only time left to laugh

In the darkest back alleys, beneath the radar  
Underneath the concrete in the cellar where the rats are  
In the bowels of Earth, moving through the roots  
Lies an underground network of villains, we living proof  
And we takin' up under our wings misguided souls  
Put together an army and headin' up, the pain grows  
Riots, mayhem, I'm provoked, attackings  
Villainous thoughts mixed with murderous actions

Wicked, sinister  
Horrible and more  
Death is beating at your door  
Unlock the villainous  
Dark Lotus  
Murder isn't for the foul  
Take away your smile  
The crows have watched you awhile  
Unlock the villainous

## Dark Lotus

Gotta be goodbye for the last time (Murder, death, kill)  
Everyday as they pass time and ever since...  
Kept em gushing, I let em flatline  
Had em all waitin' to baptize  
Give a part of me, all the blood in my artery  
Ain't no partially, hardily I'm bringing it  
Dropping like it's a prophecy and it's hard to be anything less  
And I'm villainous like a hundred knives in the chest of innocence

Villainous, I'm unlockin' on all the ego  
One's watchin' and plottin' for the return  
New Machiavellian is walking  
I'm coming and shunning bones  
Who wish I never were rose  
And willin' to put to killin', so villainous, no control  
Society is just too easy, when need it you must believe it  
Put all the pain that I have into my gun and release it  
I'm just a killa killin', wicked, in the lotus I stand  
And going villainous on everyone who says that I can't

Wicked, sinister  
Horrible and more  
Death is beating at your door  
Unlock the villainous  
Dark Lotus  
Murder isn't for the foul  
Take away your smile  
The crows have watched you awhile  
Unlock the villainous
